Jessie Kirk Recio

+(63) 956 598 6855 | kirkjessierecio@gmail.com | Quezon City, Philippines

EXPERIENCE

Apollo Lightings Inc. — Ortigas, Pasig
Frontend Developer | June 2026 – Present

- Develop and maintain a production ERP system using Laravel, Nuxt, and TypeScript, contributing across frontend Maintaining and developing a production ERP system built on the LXN stack (Laravel + Nuxt), contributing across frontend and backend layers
- Enforced strict TypeScript typing across the codebase, reducing type related bugs and improving long term maintainability
- Audited and standardized UI/UX consistency across the ERP system, normalizing components, layouts, and form validation messaging

Suntrust Properties Inc. — McKinley Hill, BGC Taguig
Jr. Systems Analyst | Full-Stack Developer | Dec 2025 – June 2026

- Re-architected a legacy reservation workflow into a full stack Django/MSSQL system covering reservations, availability, file uploads, and middleware
- Sole backend developer, owned end to end database design, API logic, and system integration for the CARLA Online Reservation System revamp
- Processed and validated 10,000+ pricing and booking records to ensure data accuracy before ERP synchronization

Prime Philippines — Diliman, Quezon City
Information Technology Intern | June 2025 – Aug 2025

- Designed conceptual AWS infrastructure diagrams using draw.io to model how S3, EC2, and QuickSight could support scalable business systems.
- Collaborated with the IT team to align infrastructure concepts with business and project requirements

PROJECTS

Pressly — React / TypeScript / Vite / Zustand

- Built a local-first image compression and PDF export web app where all processing runs client-side using browser APIs, pdf-lib, and JSZip with zero file uploads
- Implemented in-browser image compression with Web Worker support, carousel-based image review with Zustand state management, and client-side PDF and ZIP export

Typing Test — React / TypeScript / Node.js / MongoDB

- Developing a full-stack typing application using React, TypeScript, Node.js/Express, and MongoDB, with REST APIs for storing typing sessions and performance results.
- Designed the end-to-end user flow in Figma before implementation, covering the typing interface, results, and performance-history views.

SpaceX Launch Explorer — Nuxt / GraphQL

- Built a 6-page Nuxt 3 and Vuetify application consuming the SpaceX GraphQL API, with filtering, date sorting, and interactive mission details across 111+ launches.

Project CCHAIN — Data Pipeline & Prediction

- Built a Python/Pandas/NumPy data pipeline to preprocess, merge, and analyze large scale datasets across internet speed, climate, population, and geographic data

TECHNICAL SKILLS

- **Languages:** Python, TypeScript/JavaScript, PHP, SQL
- **Backend:** Django, Laravel, Node.js/Express, RESTful API design, GraphQL
- **Frontend:** Vue.js, Nuxt 3, React, Tailwind CSS, Vuetify, shadcn/ui, Pinia, TypeScript
- **Databases:** MSSQL/T-SQL, MySQL, PostgreSQL, MongoDB, SQLite
- **Cloud:** AWS (S3, EC2, QuickSight)
- **Tools:** Git, GitHub, Postman, Figma, VS Code, Cursor, Codex

EDUCATION

University of the East – Manila
Bachelor of Science in Computer Engineering | Jan 2021 – May 2025
